

To whom it may concern:

I would like to comment that ever since I started listening to K-Love radio my morning starts off better and my day goes blessed. The positive and encouraging music and words of pastors and all their prayers have changed many lives in our community and in the surrounding communities where K-Love is heard. I personally support K-Love not to help myself but to help others that this station can reach. My way of thinking has changed with the help of all their staff and their music. My desire for a relationship with Jesus Christ has also grown stronger because I hear the miracle of his power working in lives everyday. I spend most of my days in my car and to be able to listen to something different, something positive like K-Love makes even the longest trip seem like a vacation in paradise. I look forward to sharing this station with anyone and everyone I know because I believe it can change lives. I pray that your take our comments into consideration in every decision made and that the holy spirit give you the strength and courage to do the next right thing.

faithful listener,  
Leticia Contreras
